NORTHERN ITALY STILL IN THROES OF EARTH TREMORS

NINE DEAD AND SCORES INJURED

Trains on New York Central Collide With Fatal Results.

SLEEPER'S TELESCOPED

List of Dead Includes Seven Passengers and Two

New York, July 1.—Nine persons were killed, including seven passengers, and three others may die, and forty-three persons were injured in the rear-end collision between two trains of the New York Central, at Dunkirk, N. Y., at 2:20 a. m., today, said a revised statement given out at the New York Central offices here to-day. The collision occurred when train No. 7 ploughed into the rear end of the second section of train No. 41, which had balted at Dunkirk for a minor repair. The dead-

F. L. Clifford, engineer of train No. 7, believed to be from Buffalo.
Fred Stotz, fireman of train No. 7 lieved to be from Buffalo.

The New York Central offices here reported that an earlier statement hey had issued, declaring that tower signals at Dunkirk and the signal in the rear end of train No. 41 were against the oncoming train No. 7. was based on premature reports and

asked that it be withdrawn. All main lines of the New York Central through Dunkirk were blocked and trains are being routed

Train No. 41 had stopped seven car lengths west of Dunkirk on account of a hot box. Train No. 7 does not stop at Dunkirk and ploughed into the rear end of No. 41. The two rear sleepers on No. 41, bound for Cincinnatt and St. Louis, were telescoped and most of the dead and injured were in these cars. The tank of No. 7 went through the first coach of that train.

cause of the wreck was undetermined as yet, but that an investigation was under way. The first track was cleared at

o'clock this morning, and her at 9:20, and the third will be open at noon. Traffic in the meanwhile was de-toured over the Nickle Plate railroad. The impact of the collision was erriffs. The two telescoped sleepers were of the solid steel type and the nvelopment of the second by the first was almost complete.

Railroad men and volunteer rescue workers quickly gathered and turned

OVERT ACT ON PART OF MEXICO

State Department Officials Rule as to American Oil Well Case.

Washington, July 1.- The Mexican government has committed an overt act of confiscation in preventing American oil well drillers to work on lands owned by American individuals or companies by sending soldiers into the fields and driving away the workmen, state department officials said today.

Complaint was made to the Mexican government on April 2 of this year, it was learned, against the refusal of the government to grant per-mits to the oil companies to drill. No answer was received until after the Juarez incident, it was said, and then President Carranza announced no permits, provisional or other, would be granted until the companies had complied with the law. Compliance with the law, it was said by state department officials, would constitute recognition by the companies that the Mexican government owned the oil lands.

lands.

Probe to Be Made.

Washington, July 1.—Investigation of Mexican affairs by the foreign regulations committee is asked by a resolution introduced in the senate today by Senator King, of Utah. The resolution states that hundreds of millions of dollars in damages have been suffered by American citizens in Mexico, and that these claims have not been adjusted by the present Mexican government. Authority for investigation of all Mexican depredations and overt acts against American citizens is asked.

The resolution was referred to the foreign relations committee.

21 and resumed control of the Lettish government, from which he had been displaced by a man named Needra, who usurped the premiership with German support and who is now under guard in a Libau hotel.
